

PROMOTIONAL TECHNOLOGY

Welcome to our new catalogue for 2020!

As the leaders in promotional technology, we have added even more new product ideas for our first collection of the year.

New to our assortment is our range of eco themed products. A new extensive range of popular technology accessories, made using Wheat-based materials to reduce the environmental footprint of each product.

Also new to our assortment are longer and more durable cables, more lifestyle products to help enjoy using technology at work, at home and on the move and a wider range of mobile power solutions for charging phones, tablets and laptops.

If you're looking for cutting edge promotional technology, we've got you covered!

Same great design. Same great performance. ...but with added eco-credentials.

Our new tech-wheat range has been developed to recognise the growing demand for eco alternatives for promotional technology items. We have introduced new versions of our most popular items, but replaced regular plastics with a new unique 'wheat-based' composite based on biodegradable plastic that speeds up how fast the item can decompose after it's useful life.

YOYOWHEAT[✕]

FROM THE ECO FAMILY

Our supply chain is regularly audited to inspect the credibility of our sources and manufacturing processes. Using eco-themed items requires transparency and integrity to ensure the headline features are not undermined in any way. As a result, our products are more ethical for the environment and society, and your brand is in safe hands.

OCTOPUSWHEAT

FROM THE ECO FAMILY

2597 Xoopar Octopus Booster Wheat 3000 mAh

Many products classed as eco actually fail our quality inspection criteria. If a product is not fit for purpose or durable, then we believe it lacks eco credibility, so our new eco-wheat range uses the design and technology legacy of successful products and improves them without losing their performance characteristics.

XOOPAR ILO FAMILY

An ultra sleek range of desktop and mobile office gadgets to help keep your devices connected and your brand in view. A super-stylish option for any brand wanting to be featured on high-performance products. Unique to iLo, as well as the traditional branding option, each product features an additional clear plastic branding zone, which illuminates to promote your brand or campaign.

Light up your brand with our range of illuminated desk accessories. The Geo family is designed with a dark finish, that can be engraved with your logo and illuminated with a white, blue, green, orange or red LED backlight. The straight lines, geometric design, dark surface and illuminated branding creates a style loved by contemporary brands that want to stand out.

Gadgets & tech accessories are traditionally grey, black or white, but we recognise that sometimes promotional technology needs to be a little more expressive for brands who want to stand out from the crowd. Many of our items are now available in a range of metallic colours options from stock or on request. The same great choice of functions and quality but with a little extra style.

YOUR OWN CUSTOM SHAPE

If you can imagine it, we can make it!

If you have an idea for a custom technology accessory, let us know. We work with the world's leading designers and manufacturers of Promotional Technology and as well as our stock-ranges we make thousands of bespoke designs each year too!

Our custom PVC range is the easiest way to create a custom shape or reproduction of your brand that is 100% unique. Simply tell us your idea, or supply 3D artwork if you have any and our design team will do the rest. Custom cables, powerbanks, hubs or bluetooth speakers, unique to your brand or product.

Many thanks to the companies whose corporate logo, colours and symbols have been reproduced in this catalogue.

A close-up photograph of a woman's face, which is partially obscured by a modern lamp. The lamp has a white conical shade and a central vertical pole. The left side of the image is bathed in a vibrant green light, while the right side is in a warm orange light. The woman's eyes are looking directly at the camera, and her hands are visible at the bottom, holding the base of the lamp.
