

# SUSTAINABLE. USEFUL. SAFE. SENATOR.

Pens,  
Notebooks  
and Mugs

catalogue  
2021

**senator**<sup>®</sup>  
Extramoreordinary. Since 1920.

Dear Senator customers,

We look forward to being a reliable partner for you in these times. As in previous years, we have made improvements and additions to the catalogue and range without losing sight of continuity.

We would like to point out three special highlights for the products:

- Our NFC pens for the perfect combination of haptic and electronic advertising
- The Challenger ballpoint pen made from recycled plastic in many colour combinations
- As well as the Antibac series, which is now also certified against Corona

The following applies for 2021:

- All material prices of the pens are unchanged (rounded to two places)
- The printing prices have been simplified significantly
- Preliminary costs are now included in the printing prices

Almost the entire range of cups and mugs will be switched to "Made in Germany" on July 1st, 2021, with the industry price (RRP) only increasing by € 0.30.

We look forward to the year 2021 with you as a partner.

Yours,

Daniel Jeschonowski  
Group CEO Senator

**ABOUT US**

**SUSTAINABLE.  
USEFUL.  
SAFE.  
SENATOR.**

senator® products stand out because they represent a thorough concept targeting individualised brand presentation: a broad range of designs, dependable production and customised printing mean they offer a perfect match with your brand.

**SINCE 1920  
QUALITY MADE IN GERMANY**

Production and development of writing instruments has been our passion for 100 years. Our value chain within Germany and our many years of production know-how are your assurances for long life products to achieve advertising success. From July 2021, many of our mug models will be 'Made in Germany'.

**DURABLE PRODUCTS  
AND SUSTAINABLE PROCESSES**

We attach great importance to the environment. That's why our materials and production processes are designed to be free of harmful substances, ecologically compatible, waste avoiding and recyclable. We purchase green electricity from hydropower, invest in energy-saving measures and develop our products in such a way that they have a long product life.

**STRONG PROMO ARTICLES  
ON DESKTOPS**

senator® ball pens and mugs are the perfect accompaniment during everyday work. They boast persuasive functionality to help them quickly become products which are used every day, providing the ideal vehicle for advertising logos again and again, day by day.

**WE ACCEPT RESPONSIBILITY  
FOR YOUR SAFETY**

senator® products are always the safe choice and fulfil all legal requirements. To us, the BSCI and Sedex membership is as self-evident as the certification according to ISO 9001, 14001 and SMETA.

# OUR SERVICES AT A GLANCE

## WIDE COLOUR RANGE

With senator® your corporate colour is in safe hands. In addition to a large selection of standard colours, we are happy to bring your desired colour to life when designing your writing instrument or mug. With our PMS service we will realize your personal desired colour tone.

Page 100

## BIOBASED AND RECYCLED PLASTIC PRODUCTS

At senator® we are actively following the research and investment in alternative materials to reduce the carbon footprint and see this development very positively! Currently, we are already using bio-based plastics made from sugar cane in four successful ball pen models and now, three models made from post-industrial recycled plastic.

Pages 8-15

## 5000 IN 5 EXPRESS SERVICE

Benefit from the advantages of the unique senator® "5000 in 5" service. Your ball pen orders in quantities of up to 5,000 will be produced, printed in up to 5 colours, packaged and ready for dispatch within 5 days.

Page 102

## PERFECT PRINT TECHNOLOGY FOR EVERY BRAND IDENTITY

The full range of spectacular printing options for our writing instruments and mugs are the guarantees to provide the best presentation for your brand identities. We can help you in selecting the most suitable branding options, and design your promotional items to leave lasting impressions.

Pages 104-109

NEW

## DIGITAL SOLUTIONS

Use the senator® Challenger now with an integrated NFC tag and transmit additional digital information. As soon as you hold an NFC-enabled smartphone to the pre-programmed NFC tag, you will see the additional information linked to the chip – individually tailored to your wishes, always up to date and alterable any time.

## SENATOR PLASTIC PENS

**100 % MADE IN GERMANY.  
100 % SUSTAINABLE.  
100 % SUCCESS.**

senator® writing instruments have been produced in the heart of Germany for 100 years. Durability, sustainability and reliability are what drive us. For your advertising success.

## SUSTAINABLE PRODUCTION

Our environment is very close to our hearts. That is why our materials and production processes are geared towards sustainability, ecological compatibility, waste avoidance, resource conservation and recycling.

Our production takes place in the heart of Europe. This means short distances on the way to your customers.

## DURABILITY

We place the highest value on the use of first-class materials and high-quality workmanship.

The advertising application also meets high quality requirements: high colour brilliance, sharp-edged prints, long durability.

## GREEN ENERGY

We only purchase green electricity from hydropower and also invest in further electricity-saving measures at the production site.

## REFILLS

Our refills offer up to 5,000 m of writing comfort. No smearing or scratching, document-proof!

Once they are empty, you can get a **free replacement** at [www.refills.senator.com](http://www.refills.senator.com).

# BIOBASED PLASTICS AND RECYCLED PLASTICS

Plastic is a valuable resource but it should be used efficiently, which is why our materials and production processes are designed to be free of harmful substances, ecologically compatible, waste avoiding and recyclable. Close to 100% of our production waste is either reused or recycled.

Brand new in the range, you will now find three ball pen models made from post-industrial recycled material.

Our Bio range, however, goes even further. The visible parts of our Nature Plus, Skeye Bio and the barrel of our Super Hit Bio and Liberty Bio pens are made from a bioplastic which is based on PLA - derived from renewable and non-finite raw materials. Since 2019, our bio pens are completely climate neutral.

## BIOBASED PLASTICS (PLA UND R-PLA)

We use a PLA based on renewable resources for our bio products.

Our PLA is made from sugar cane. One of the most efficient raw materials for PLA production.

## RECYCLED PLASTICS (R-ABS)

We use an ABS recompond based on >95% recycled material.

This means reusing industrial production remnants and waste, returns and everyday products.

Source	Renewable raw material with a biobasis
Material basis	PLA (poly lactic acid from sugar cane)
Core characteristics	Pleasant feel and natural colours
CO <sub>2</sub> footprint	CO <sub>2</sub> reduced, as up to 85 % is organic / renewable

Genuinely recycled plastic from durable articles
ABS (Thermoplastic material)
High-quality surfaces
Up to 75 % less CO <sub>2</sub> compared to new ABS plastic

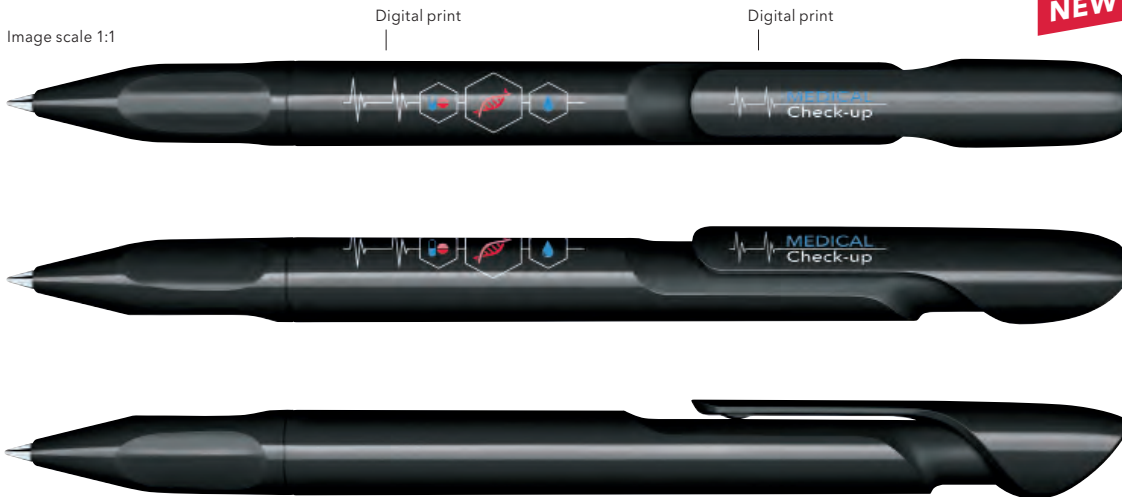

## EVOXX POLISHED RECYCLED

# UNMISTAKABLE RECYCLING HERO.

Made from recycled material, focused on durability and in a forward-looking, unique design that catches everyone's eye. For impressive advertising impact.

# SENATOR WORLD OF COLOURS

## STOCK COLOURS

With senator® your corporate colour is in safe hands. The colours available for senator® ball pens offer a broad choice of surfaces and models. This gives more flexibility when selecting the best promotional ball pen to perfectly fulfil your needs.

### 10 BASIC COLOURS

Our basic models offer a combination of white with various colour accents. These basic models are available in our top 10 colours.

### 15 STANDARD COLOURS

In order to ensure you have the biggest possible choice and comparison, most of our plastic ball pens are available in our 15 standard colours per surface.

### LONG-TERM COLOUR GUARANTEE

We guarantee that our 15 standard colours will be available unchanged in the years ahead. You can depend on being able to make follow-up orders in the future for many years from the senator® range for your original colour tone choice.

## MIX & MATCH SERVICE

Customise our pens to fit your corporate design using the senator® Mix & Match Service. Many senator® products can be mixed in colour and surface. Contact us. We will be happy to assist you.

### COLOUR

Mix all available colours for each component of your chosen model to compliment your brand.

### MATERIAL

Choose from the available surfaces for each component and complete with an optional metal tip/clip.

### SERVICE

We will happily create a visual for your individual pen if required.

# SENATOR WORLD OF COLOURS

## PMS SERVICE MUGS

### COLOUR 4U

For those who want to use the colour of their corporate design in an even more eye-catching way, we are happy to turn our high-gloss white cups into colourful eye-catchers.

Tell us your desired colour and we will dye the exterior of your chosen mug to create the perfect eye-catcher. This service is available on all senator® white porcelain mug ranges, except for sets. We will be happy to assist you with the selection of your colour.

Our Colour 4U can achieve an incredibly broad colour range. These colours only tolerate lower burning temperatures affecting the durability. Even though these colours are suitable for use in standard dishwashers, we recommend hand washing

## PMS SERVICE PENS

You can't find your preferred colour in our catalogue products? Then check our PMS service, which will definitely offer you the right option. Simply tell us the PANTONE® number of your preferred colour and we will produce either the pen in its entirety or only specific parts with your preferred tone.

This service does require certain minimum quantities. For details, please refer to the respective product. In order to give your approval to the PMS service, we send you a sample piece produced with your preferred colour. To achieve an even higher degree of colour security (for example for the clear or frosted surfaces) we can also on request produce a pre-production sample in advance.

### INDUSTRIAL PRICES (€)

Costs for individual for individual PMS colour: 1,000.00 €

For a proof sample these costs are additional.

\*Industrial prices are to be understood as RSP in euro, ex works, VAT not included.

We can also supply our metal pens in different colours. We will be happy to advise you on colours and minimum quantities. Contact us.

Our colour references always refer to the PANTONE® Matching System, however we must point out that the product itself - because of different surfaces, lighting and materials - can differ from the colour tone printed on paper. This is why we cannot accept complaints for such deviations.

# OUR FAST DELIVERY SERVICES

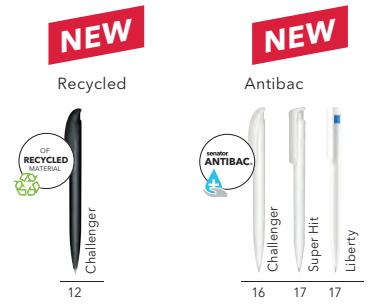

## Express Service (Online Portal)

You can also simply place your orders online at any time. Including print approval. Fast and uncomplicated.

With the integrated configurator, you can create the finished print data at the same time. This saves further coordination processes and leaves you time to take care of your customers.

- We produce all articles within **5 working days**
- Plastic pens from 50 pieces
- Metal pens from 10 pieces
- Mugs from 6 pieces
- Notebooks from 10 pieces
- **Free printed samples** also available

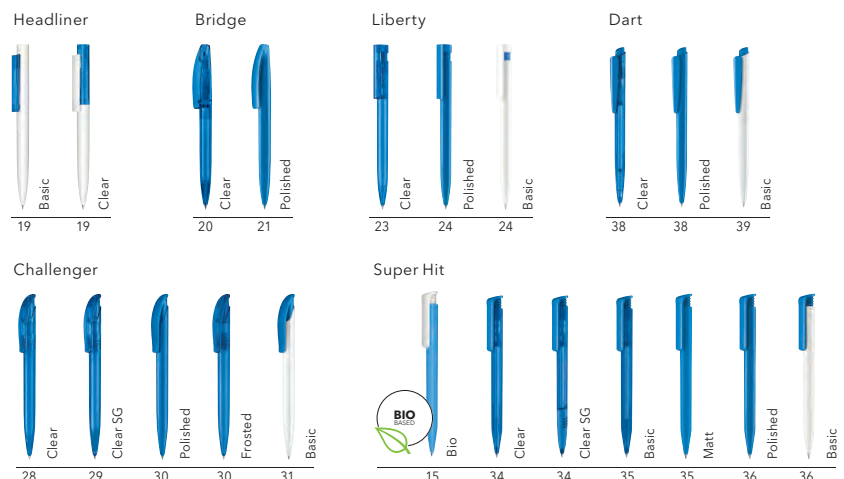

[my.senator.com](http://my.senator.com)

## 5,000 PENS IN 5 DAYS

You, too, can benefit from the advantages of the unique senator® "5000 in 5" services. All of your orders for volumes of up to 5,000 pieces will be produced within 5 days, including up to 5-colour printing, packaging and ready for dispatch.

- **5 days production period** from approval of the position sketch
- **up to 5,000 ball pens**
- up to 5-colour printing (1 print position)
- valid for all colours of the respective model
- blue ink
- Surcharge for this service: 0.04 €/pc.

# DIGITAL SOLUTIONS

Use the senator® Challenger now with an integrated NFC tag and transmit additional digital information.

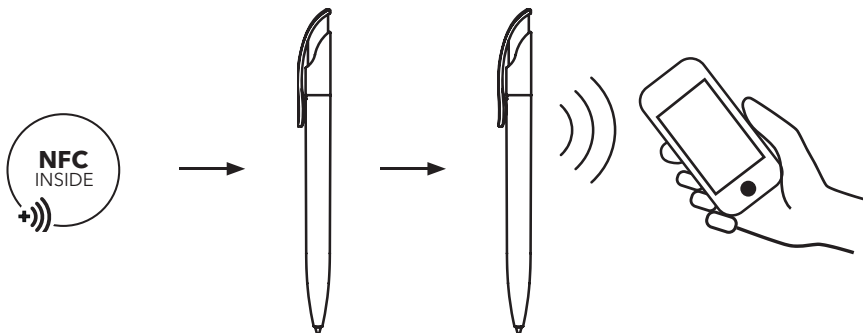

As soon as you hold an NFC-enabled smartphone to the pre-programmed NFC tag, you will see the additional information linked to the chip – individually tailored to your wishes, always up to date and alterable any time.

**NEW**

## The senator® Connected Pen Package

- We equip your Challenger with a clever NFC tag.
- When you place your order, you will receive a registration code for setting a link of your choice.
- The ball pen is thus already coded on delivery and immediately ready for use and only you can adjust the link online.
- The printed NFC scan logo informs the user of the digital function.
- You can change the link at any time via your individual login. Today, the NFC chip still refers to your homepage, for example, and tomorrow to a new promotion.

## Example applications:

### Business cards

With all important contact information including a call function

### Special Offers

With special discount code to redeem with the ball pen

### Videos

To your product and service range

### Sales documents

Price lists, catalogues, flyers always available

## INDUSTRIAL PRICES (€/PC.)

Surcharge for "Connected Pen" 0.99 €  
incl. 1c barrel print

The senator® Connected Pens are available in units of 1,000 pieces or a multiple.

The clever cloud solution allows changing content. This means that the product will always be up-to-date, even after long periods of use.

PROMOTIONAL GIFT  
AWARD 2021

# BRANDING METHODS ON PENS

## DIGITAL PRINT

### DIGITAL PRINT

Our digital print is the perfect solution to apply multicoloured prints on the clips or barrels of our ball pens. With this method we also place logos very effectively onto the cap of our Liberty models.

#### Technology:

The digital print uses the CMYK colour printing process to mix all colours from the basic four. For prints on coloured backgrounds we apply an extra layer of white underneath the print.

#### Strengths:

- Print to the edge of the clip
- Realisation of colour gradients
- Also suitable for photo-realistic themes

### DIGITAL PRINT WITH 3D EFFECT

On many white barrels of our writing instruments, large-area digital prints can be supplemented with a haptic effect. Give your brand presentation noticeably more structure and shine.

#### Technology:

The digital print uses the CMYK colour printing process to mix all colours from the basic four. An additional lacquer layer is added on top of the print for a high-gloss raised feel effect.

Minimum quantity: 1,000 pieces

#### Strengths:

- Incomparable 3D effect
- Realisation of complex colour gradients
- Reproduction of countless colours

## STANDARD PRINT

### STANDARD PRINT

Whenever it comes to branding our ball pen barrels, screen print is the branding method of our choice. For the curved clips, on the other hand, we use tampo printing. Both processes ensure optimal implementation of your brand message.

#### Technology:

Screen print is a direct print process whereby ink is pressed through a mesh onto the ball pen. Tampo print is an indirect print method whereby ink is transferred from the cliché via a silicone pad onto the surface to be printed.

#### Strengths:

- Particularly sharp-edged prints
- Accurate full colour prints possible
- Multicolour prints possible

### STANDARD PRINT WITH 3D EFFECT

The large 360° print area of our ball pen pens can be transformed into a tactile 3D surface with an additional gloss effect using an additional layer of lacquer.

#### Technology:

The lacquer layer substitutes one colour of the Barrel Print 360° and can be combined with prints of up to 4 colours. Minimum quantity: 1,000 pcs.

#### Strengths:

- Raised 3D surface
- Accentuation of selected elements
- Accurate full colour prints possible

## STANDARD PRINT ON METAL

## LASER ENGRAVING

### STANDARD PRINT ON METAL

The surfaces of our metal pens are refined by varnishes, lacquers or other surface coatings. In order to achieve a good bonding of the ink and wear resistance on these surfaces we use our special Metal print method.

#### Technology:

For the printing of our metal pens, the inks used are additionally hardened to achieve long-lasting adhesion and thus advertising duration.

#### Strengths:

- Great on varnished surfaces
- Brilliant colours
- Accurate full colour prints possible

### LASER ENGRAVING

A very elegant branding method on metal surfaces. Logos or messages are very accurately and permanently worked into the metal surface.

#### Technology:

For our laser engraving we use a high precision computer-controlled laser which engraves the surface of our writing instruments and thus expose the metal layer underneath.

#### Strengths:

- A high-class and modest result
- Extremely durable
- Suitable for individual names

# REFILLS

## senator® magic flow

1,0 mm

1,4 mm

The refill is a decisive part of the ball pen and contributes considerably to the success of the product. Therefore, when choosing a promotional ball pen, its inner values should be a primary consideration.

A high quality refill ensures a more pleasurable writing experience and guarantees higher levels of exposure and a better economic return for brands.

The **senator® magic flow** refill is one of the best in its class:

- Continuous writing with no spots of ink
- Thanks to a high quality ball and new writing ink in premium quality, this refill offers an extremely smooth and even writing experience
- In two widths:  
1.0 mm for all who prefer a clear and fine line  
1.4 mm for all who like the lines being a bit stronger
- Indelible to ISO-12757-2 and tested under stringent quality criteria to the highest demands

## BALL PEN REFILLS

8062 senator® magic flow X20 refill (1.0 mm)

8004 senator® magic flow G2 refill (1.0 mm)

8080 senator® magic flow G2 refill (1.4 mm)

8068 senator® magic flow refill, G2

## ROLLERBALL REFILLS

1916 Safety roller plastic refill

1904 Safety roller metal refill

### BALL PEN REFILLS

Each senator® ball pen is equipped with the perfectly matching refill. We only use tested and standardised quality refills and guarantee:

- Fixed minimum filling quantities for each refill
- Indelibility to ISO-12757-2
- Compliance with customary refill systems

### INDUSTRIAL PRICES (€/PC.)

<b>8062</b>	Magic flow refill 1.0 mm, X20, blue or black	0.07
<b>8004</b>	Magic flow refill 1.0 mm, G2, blue or black	0.12
<b>8080</b>	Magic flow refill 1.4 mm, G2, blue or black	0.20
<b>8068</b>	Metal refill 1.0 mm, G2, blue or black	0.40

Change of refill and minimum quantities see page 113

### ROLLERBALL REFILLS

A characteristic of our senator® rollerball refill is the long "Cap-Off" time. A rollerball can easily be left on the table without its cap and will start writing any time

### INDUSTRIAL PRICES (€/PC.)

<b>1916</b>	Rollerball refill 0.6 mm, blue or black	0.45
<b>1904</b>	Rollerball refill metal 0.6 mm, blue or black	0.70

Change of refill and minimum quantities see page 113

# BRANDING METHODS ON NOTEBOOKS

## DIGITAL PRINT

### DIGITAL PRINT

Multicoloured printing can be realised quickly and cost-effectively with digital printing. With our notebooks, the surface can be used almost completely for printing. Only a small margin is necessary for technical reasons.

#### Technology:

The digital print uses the CMYK colour printing process to mix all colours from the basic four. For prints on coloured backgrounds we apply an extra layer of white underneath the print.

#### Strengths:

- Large print area
- Realisation of colour gradients
- Also suitable for photo-realistic themes

## EMBOSSING

### EMBOSSING

Flexible surfaces such as the outer pages of senator® paper books or our leather case can be discreetly and permanently individualized with blind embossing. This type of finishing requires no colour at all and is therefore particularly noble.

#### Technology:

The logo is permanently embossed into the material using heat and pressure with the help of a stamp.

#### Strengths:

- Understated quality
- 3D effect
- Gives company logos real impact

# BRANDING METHODS ON MUGS

## DIRECT PRINT

## TRANSFER PRINT

### DIRECT PRINT

With the Direct Print method we apply the ink directly onto the mug. This saves time and money.

Many of our mug models are suited for up to 4-colour prints, for some models this print method is restricted to 2 colours. Some print designs cannot be reproduced with the Direct Print method. We will be happy to evaluate your logo prior to printing to make sure this print method is best suited for your project.

The dimensions for the brandings stipulated in the catalogue are valid for most of the logos. Restrictions may occur depending on the logo.

#### Strengths:

- Short delivery times
- Cost-effective branding method
- Strong with line prints

### TRANSFER PRINT

Transfer Print is a branding method by which we first print the design on a label to be applied onto the mug in a second step. During the firing process the colour combines with the mug surface, the label dissolves up to a small edge around the print design.

#### Strengths:

- Endless variety
- Strong with half-tone prints
- Nearly perfect with colour gradients

## SUBLIMATION

### SUBLIMATION

The sublimation process uses pressure and heat to transfer the graphic onto a specially coated mug.

We offer this impressive branding method for a total of 9 different mug designs and King Can.

#### Strengths:

- High colour variety and brilliance
- Photo realistic prints possible
- Already available for small quantities from 36 pieces

## ENGRAVING

## COLOUR 4U

### ENGRAVING

A computer-controlled laser engraves a logo or imprint into the item ensuring absolute definition and longlasting branding.

For coloured cups, large engravings can be impressively highlighted by means of sandblasting.

#### Strengths:

- Striking tactile results
- Understated quality
- Precise reproduction of logos and lettering

### COLOUR 4U

Name your requested colour and we dye the outside of your mug to your requirements. This is possible for all white porcelain and stoneware mugs in our senator® range except for our tableware sets.

#### Strengths:

- Supremely customisable
- Colour matching on request
- Striking in combination with engraving

# PACKING UNITS

# ARTWORK

## GENERAL INFORMATION

Please send us your artwork in the below mention file types or send text in on of our standard typefaces.

Please also provide a print sample or proof if possible.

Please send logos and text as vectorised files or as TIF-files with 1200 dpi, in case of photos we require a resolution of 600 dpi.

Vectorised logos can be scaled without any loss in quality and are to be preferred against pixel files.

Below mentioned minimum font sizes and minimum line widths are guidelines only. Depending on the motive, branding method or product surface smaller letters and finer lines might be possible or larger letters or bigger lines might be necessary.

### Proof samples

To make sure you get the best possible result we recommend the production of a sample for approval. (For production reasons slight colour deviations between a print on paper and a print on other materials are unavoidable).

### File formats

Adobe Photoshop CC 2020  
Adobe Illustrator CC 2020  
Adobe Indesign CC 2020  
Corel Draw X8  
(Please convert all texts into curves)

## PENS

### Print colours

With the available colour shade mixing range, all Pantone C and HBP K shades can be mixed. Slight colour shade deviations between paper flags and print are unavoidable on white underground. Major colour shade deviations on an underground of a different colour shade or on a dark-shaded underground must be tolerated.

### Digital print

All colours are mixed in CMYK, so it is not possible to print real PMS colours. In nearly every case the colours will be close to. Very large, uni coloured surfaces cannot be realised. Minimum size: 8 pt, minimum line width: 0.15 mm

### Laser engraving

Minimum line width: 0.15 mm, Minimum front size: 6 pt

### Personalisation (list of names)

Many of our products can be customised with the personal name. Please send us the names in an excel file.

### Raster

Screen print: Raster of 40, colour intensity 15 - 85%.  
360° barrel print: Raster of 48, colour intensity 15 - 85%

### Standard Typefaces

Arial, AvantGarde, Courier, Futura, Present, Serifa, Helvetica, Times New Roman, Univers each regular, bold, italic, bold italic, BrushScript, English script type each italic and bold italic. Other typefaces possible (only PC), please send font as True Type-face (\*.ttf).  
Other or similar typefaces on request.

## MUGS

### Direct Print

On white mugs

Without trapping in the design:

Minimum size 10 pt, minimum line width 0.2 mm, no raster

With trapping in the design:

Minimum size 10 pt, minimum line width 0.5 mm, no raster

On coloured mugs a white layer will always have to be layed underneath:

Minimum size 24 pt, minimum line width 0.8 mm, no raster

### Transfer print on stainless steel and coloured mugs

Minimum size 12 pt, minimum line width 0.35 mm, printable colour intensity 15 - 85 %.

### Laser engraving on stainless steel

Minimum size 8 pt, minimum line width 0.2 mm.

### Laser engraving on coloured mugs

Minimum size 12 pt, minimum line width 0.4 mm

### Personalisation (list of names)

A great variety of our mugs can be customised with the personal name. Please send us the names in an excel file. Please note that this very special way of customisation is always possible when the name stands for itself and is not part of the remaining design.

### Sandblasting

Minimum size 24 pt, minimum line width 1 mm, no raster

### Sublimation

Minimum size: positive 8 pt, negative 10 pt  
Minimum line width: positive 0.2 mm, negative 0.3 mm, no raster

### Transfer print

Minimum size 8 pt, minimum line width 0.2 mm, printable colour intensity 15 - 85 %

# ADDITIONAL SURCHARGES

## DELIVERIES

### Labelling

Labelling of single pens, gift boxes, polybags (10, 20, 25, 50, 100er) and outer carton. Per label: 0.15 €

### Delivery quantity:

As stated in our general business terms, we reserve the right to over or under delivery. For delivery by exact number, we charge: 2% surcharge on product and branding

### Minimum order surcharge

The minimum quantities are defined by the lowest quantity scale and packing unit per model and colour. For orders below the minimum quantity (but at least half the quantity) we charge 50.00 €

### Return of neutral goods

Return of unprinted goods in original packaging is possible within 4 weeks after dispatch and after consultation with us. We charge a handling fee per position of: 50.00 €

### Shipping to distributor plan

Handling fee per additional shipping address, packing included (plus shipping costs): 8.00 €

Change of ball pen or rollerball refill per piece: 0.15 €  
 Minimum quantity for plastic pens: 1,000 pcs.  
 Minimum quantity for metal pens: 100 pcs.  
 For our models Super-Hit, Dart, Liberty (except for version with metallised tip), Point Metal, Star Tec and Delgado a change of refill is not possible! The surcharge is to be understood plus price for the refill.

## PRODUCTION

### Proof sample

Proof sample per colour & position (plus product price): 40.00 €

### Print

To achieve a better printing result it is sometimes recommended to print a white layer underneath the print or to apply the print twice. In these cases printing charges are invoiced once more.

### PMS Service

Almost all of our models are available in individual colours according to PMS on request. The minimum quantities are for plastics models 20,000 pieces, mugs 1,000 pieces. For a proof sample these costs are additional. 1,000.00 €

## PACKAGING

### Plastic pens

Printed pens are packed in polybag of 100 pcs. Exception: Super-Hit and Dart are bulk packed in carton. Different packaging (e. g. 10, 25, 50 or 100 pcs. in poly bag) or in box of 50 ball pens per 100 pieces: 1.10 €

Single packaging in poly bag. per 100 pieces: 10.00 €

### Metal pens

are packed in a plastic tray of 10. Exception: Polar in a cardboard tray of 10 Single packaging in polybag, 10.00 €

Valid from April, 1, 2021

With this price list all previous prices and conditions lose their validity. All prices are industrial prices and are to be understood as recommended selling price in euro per piece, ex works, excluding VAT. Whilst our catalogues are prepared with utmost care SENATOR GmbH cannot guarantee the completeness and accuracy of the information provided.

Our general terms apply. You will find these at [www.senator.com](http://www.senator.com)

## SENATOR® RECYCLED PENS

### OUR GREEN SUPER HEROES.

If sustainability is just as important to you as good design, then the three senator® Recycled Pens are the models of your choice: made from recycled material and produced in Germany with CO<sub>2</sub>-neutral green electricity.

#### The new senator® recycled pens

We use a >95% recycled ABS ReCompound. This means reusing industrial production scraps and waste, returns and everyday products.

The three new senator® models made from post-industrial recycled material show that good design does not have to be sacrificed in the process.

#### EVOXX Unmistakable appearance

- Striking look
- With practical grip indents

#### TRENTO Clever recycling power

- Straight shape
- Economical use of materials

#### CHALLENGER Longstanding popular design

- Bestselling design
- Also configurable in Mix & Match
